Weston, Roy F. ..... .193
Woinsky, Samuel G. 9

Titles

B

Biofiltration of BTEX: Media, Substrate, and Loading Effects. 151

Biological Treatability Studies: New Regulations Require a New Approach 172

C

Case Study of Waste Water Minimization at a General Electric Manufacturing Plant.....176

Compliance With NPDES Storm Water Discharge Permit Requirements 41

Criminal Sanctions Under Environmental Statutes 204

Crossflow Air Stripping and Catalytic Oxidation of Chlorinated Hydrocarbons from Groundwater 3

D

Demonstration of an Innovative Heavy Metals Removal Process.....13

Development of Emissions Inventories for Evaluation of Eulerian Acid Deposition Models. 17

Design Concepts for Biological Treatment of Industrial Wastewater 1

Development of a Computer Supported Information System for Measuring Pollution Prevention Progress.....280

E

Enhancement of *In Situ* Microbial Degradation of Chlorinated Organic Waste at the Petro Processors Superfund Site 51

Estimation of Methodology and Validation of Particulate Entrainment in a Polit-Scale Rotary Kiln-Based Hazardous Waste Incinerator..... 44

Evaluation of Brush Plated Alloys as Substitutes for Tank Plated Hard Cromium.....220

F

Fatty Acid Separation from Hydrolyze Wastewater by Ultrafiltration.. 65

Fungal Technologies for the Treatment of Hazardous Waste 201

G

Ground water Air Stripping: Effect on Water Toxidy 25

H

Hot Gas Desulfurization With Phillips Z-Sorb Sorbent in Moving Bed and Fluidized Bed Reactors 146

I

Integration Low-NOx Burners, Overfire Air, and Selective Non-Catalytic Reduction on a Utility Coal-Fired Boiler 115

Integration of Chemical and Biological Oxidations Processes Water Treatment: Review and Recommendations.....88

Issues in Facility-Level Pollution Prevention Measurement..... 240

L

Life Cycle Inventory Analysis of Chemical Processes 193

M

Mercury Reduction in Products and Processes: A Review of the Electrical and Electronic Industries..... 232

Mass Transfer Correlations for Air Stripping Towers 137

Methodology for Obtaining Air Emission Factors at Point Sources Containing a Combustion Process ,'A 131

N

New Advanced Solids/Oil/Water Separator 9

Nitrification in Single-Stage Tricking Filters 164

O

Optimizing Remedial Action Implementation at the C&R Battery Company Superfund Site... 75

P

Physical Conditioning to Enhance Bioremediation of Excavated Hydrocarbon Contaminated Soil at McClellan Air Force Base .. 104

Pollution Prevention Applications in Construction and Water Resource Management.....254

Pollution Prevention Possibilities for Small and Medium-Sized Industries: Analysis of the WRITE Projects.....224

Pollution Prevention: The U.S. Experience.....214

Preparing for an Unannounced Inspection: What to do if an Inspector Shows up 209

R

Recovery of Carboxylic Acids from Aqueous Streams 61

Reduction of Effluent Toxicity for a Printed Circuit Board Facility .. 80

Removal of Elemental Phosphorus from Electric Furnace Sludges of Various Origins 84

Removal of SiO2 Particles With an Ejector Venturi Scrubber 28

Results of a Two-Year *In Situ* Bioventing Demonstration....121

Review of Solvent Cleaning in Aerospace Operations and Pollution Prevention Alternatives..... 261

S

SCR Catalyst-Coated Fabric Filters for Simultaneous NOx and High-Temperature Particulate Control 69

Stormwater Management in Industrial Facilities: An Integrated Approach 126

Stripping of TCE from Water at Low Air/Water Ratios 111

Study of General Ventilation and the Local Exhaust Ventilation in Industrial Premises Using RTD Theory, A 159

Supercritical Water Oxidation Research and Development Update 182

U

Using LCA-Based Approaches to Evaluate Pollution Prevention.....247

Using Pollution Prevention Tools for Compliance in the Federal Community.....273

Subjects

A

Acid(s)
carboxylic, recovery of. 61
fatty separation. 65
deposition models. 17
Aerospace operations. 261
Air stripping
crossflow. 33
emission factors. 131
groundwater. 25
towers. 137
Alloys, brush plated. 220
Aqueous streams. 61

B

Bed reactors. 146
Biological
treatability studies. 172
treatment. 1
Biofiltration of BTEX. 151
Bioremediation 104
Boiler, coal-fired. 115

C

Catalytic oxidation. 33
Chemical processes, analysis of. .193
Chlorinated
hydrocarbons. 33
organic waste. 51
Combustion process. 131
Compliance 41, 204, 209, 273
Computer information system. .280
Contaminated soil. 104
Cromium, tank plated hard. . . . 220

D

Design concepts 1
Desulfurization, hot gas. 146

E

Effluent toxicity, reduction of. . . 80
Ejector venturi scrubber. 28
Electrical industries, review of. . 232
Elemental phosphorus. 84
Emissions inventories 17
Eulerian acid deposition. 17

F

Filters
SCR catalyst-coated. 69
single-stage trickling. 164
Fluidized bed reactors. 146
Fungal technologies 201

G

Groundwater
air stripping. 25
hydrocarbons from. 33

H

Hazardous waste
incinerator. 44
treatment of 201
Heavy metals, removal process. . .13
Hydrocarbon contaminated soil.104

I

Incinerator
hazardous waste. 44
rotary kiln-based. 44
Industrial wastewater treatment. . . 1
Information system, computer. . 280
In Situ
bioventing demonstration. . 121
microbial degradation. 51

M

Mass transfer correlations. 137
Mercury reduction. 232
Microbial degradation. 51

N

Nitrogen oxide
burners. 115
filters for. 69
NPDES, compliance with. 41

O

Organic waste. 51
Oxidation
catalytic. 33
processes 88
water. 182

P

Particulate
control, high temperature. . . . 69
entrainment, validation of. . . .44
matter, removal of 28
Phosphorus, elemental. 84
Pilor-scale incinerator. 44
Pollution prevention
applications. 254
alternatives. 261
analysis of WRITE projects. .224
in construction. 254
LCA-based approaches for. . 247
measurement. 240
measuring progress. 280
the U.S. experience. 214
tools for compliance. 273
Printed circuit coard facility. . . . 80

R

Ratios, air/water. 111
Reactors. 146
Remedial action 75

S

SCR catalyst-coated fabric filters. 69
Scrubber, venturi. 28
Separator, solids/oil/water. 9
Sludges, electric furnace. 84
Soil, contaminated. 104
Solvent cleaning. 261
Stormwater management. 126
Submicron particulate matter. . . .28
Superfund site(s)
C & R Battery Company 75
petro processors. 51

T

Tools, pollution prevention. 273
Tank plated hard cromium. 220

U

Ultrafiltration, separation by. . . . 65

V

Ventilation, a study of 159

W

Waste
chlorinated organic. 51
Wastewater
biological treatment of. 1
fatty acid separation from. . . . 65
minimization. 176
Water
oxidation. 182
resource management. 254
storm water discharge. 41
stripping TCE from 111
toxicity 25
treatment, processes for. 88
